Exploring every corner of
Inflammatory Bowel Disease

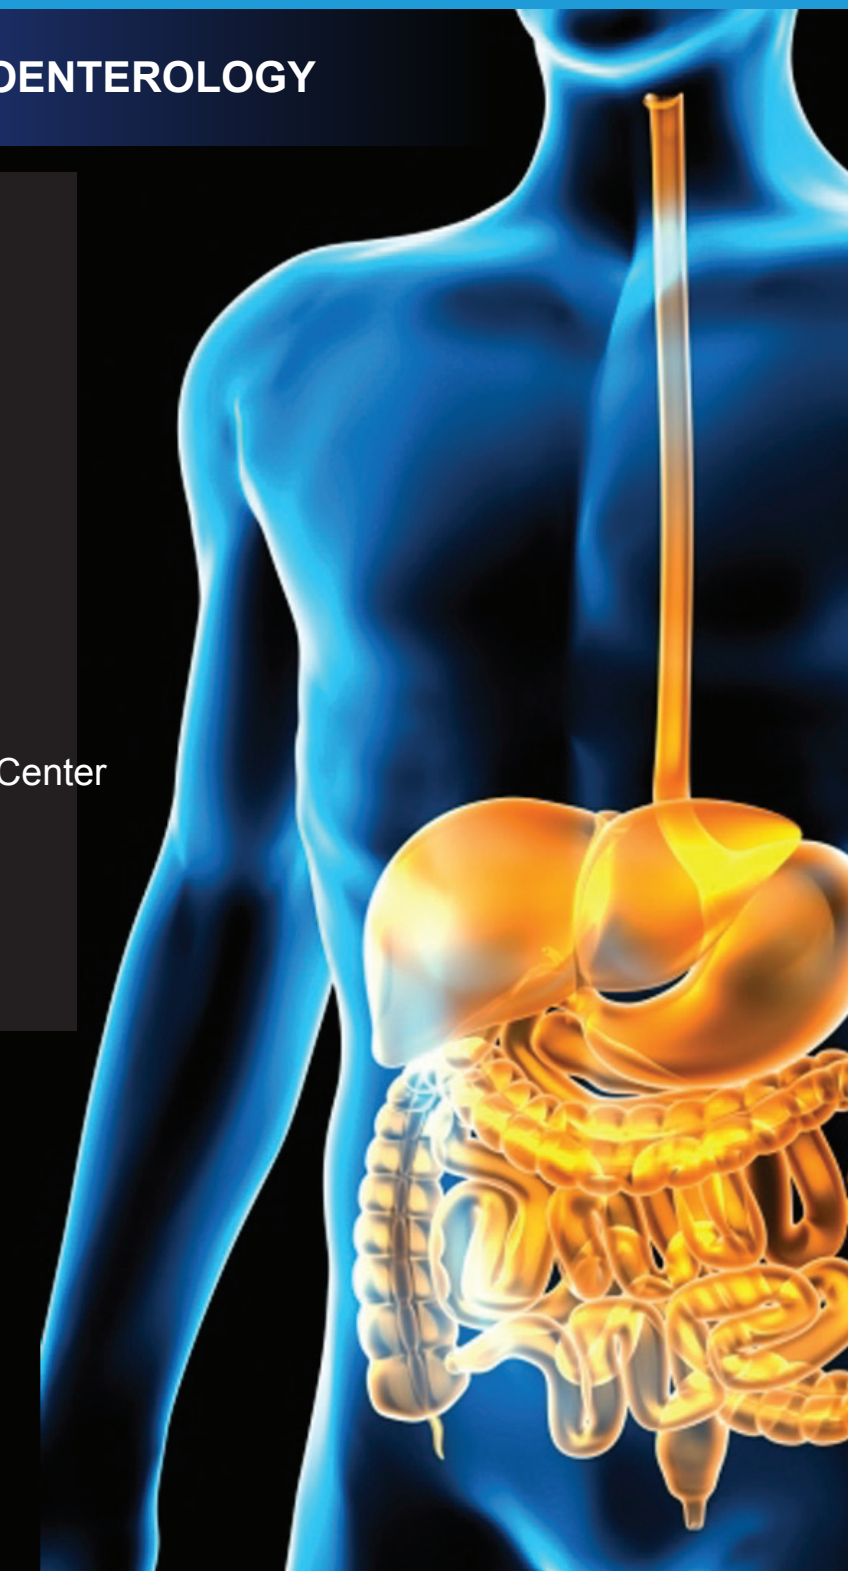

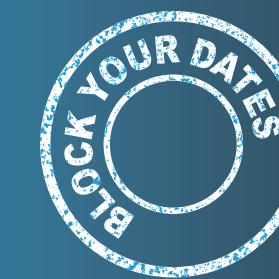

ASIAN INSTITUTE OF GASTROENTEROLOGY

AIG IBD SUMMIT 2018

26th - 28th January 2018

Hyderabad International Convention Center
HITEC City, Hyderabad

Exploring every corner of Inflammatory Bowel Disease

Welcome Message

Dear colleagues,

It is a great pleasure to welcome you to Hyderabad for the International Symposium on Inflammatory Bowel Disease scheduled on 26th - 28th January 2018.

As you are aware, IBD is an emergent disease in India and the Asia-Pacific with a rising incidence over the last decade. Crohns disease & ulcerative colitis are chronic lifelong conditions. Establishing and maintaining symptom control and remission is critical to minimize the complications. The changing socio economic environment and prevalent disease patterns has presented unique diagnostic dilemmas, management controversies and challenges.

This symposium aims to provide an in-depth review of the pathophysiology, diagnostic methods, medical and surgical therapeutic approaches of IBD. International and national experts in the field will discuss, debate and highlight the latest concepts and consensus in the management of IBD.

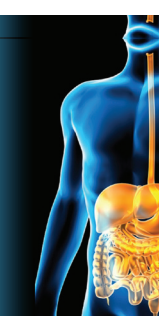

Overall, we need to learn from each other, share knowledge and best local practices to optimally manage our patients.

We would like to welcome everyone who has interest and expand the knowledge on IBD to join us in Hyderabad in January!

Warm regards,

D Nageshwar Reddy
Chairman and Chief of Gastroenterology
Asian Institute of Gastroenterology

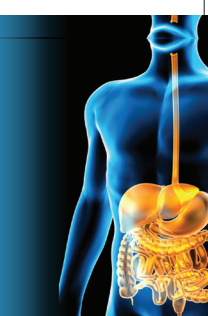

AIG IBD SUMMIT 2018 SCIENTIFIC PROGRAMME

DAY 1 26th January

Welcome address :	
10.00 - 11.15	The GI Fellows Corner <ul style="list-style-type: none"> Recent landmark publications that will impact clinical practice Post graduate IBD Grand Rounds: A Challenging case A career in IBD: Prospects & Challenges (Motivational talk)
11.15 - 11.30	Coffee and Tea Break
11.30 - 12.30	The Basic Sciences: Bench to bedside <ul style="list-style-type: none"> Genetics in IBD: What the clinician needs to know Can the Increasing burden of IBD be tackled by changing lifestyle ? Immunotherapy of IBD simplified: How do the drugs work ?
12.30 - 13.00	State-of-the-art lecture: Research in IBD: what have we achieved & where are we going ?
13.00 - 13.20	How can I help ? The Radiologist: <ul style="list-style-type: none"> Small Bowel imaging - CT or MR Enteroclysis ? Large Bowel Imaging - Is CECT the best ? Ultrasound and Bariums - time to say goodbye ?
13.20 - 14.00 pm	Lunch
14.00 - 14.30 pm	How can I help ? <ul style="list-style-type: none"> The Pathologist - Case discussions <ul style="list-style-type: none"> - Is it infectious ? - Is it UC or CD ? - Mimics of IBD ?
14.30 - 15.15 pm	Endoscopy corner <ul style="list-style-type: none"> Small bowel ulceration: Is it only Crohn's ? Colonoscopic screening & surveillance: Too much or too little ? Interventional endoscopy in IBD
15.15 - 17.15	Live Endoscopy from Asian Institute of Gastroenterology Diagnosis & grading, polypectomy, dilatation of strictures Novel imaging, chromoendoscopy Stem cell therapy Fecal transplantation Stomacare / seton placement
17.15 - 17.30	Coffee and Tea Break
17.30 - 18.15	My View: Agree or Disagree ? (Audience poll) Statement I. Serologic markers are not useful in clinical practice Statement II. Faecal calprotectin can replace colonoscopic monitoring Statement III. Pre & probiotics have an important role in management
18.15 - 19.00	Debate of the day Point: Mucosal healing is all that matters: Counterpoint: How a patient feels is all that matters:

AIG IBD SUMMIT 2018 SCIENTIFIC PROGRAMME

DAY 2 27th January

08.30 - 09.00	The Fun Quiz show: Guess the diagnosis & win prizes
09.00 - 09.45	Daily dilemmas Corner: <ul style="list-style-type: none"> Have I got IBD ? Is it TB? Is it Crohns ? When can I stop my medicines ?
09.45 - 10.25	A challenging case: Preparing for the unexpected
10.25 - 10.50	AIG Oration The Gut Microbiome: The cause and cure for gut diseases
10.50 - 11.10	Coffee and Tea Break
11.10 - 12.10	Conventional therapy: How to optimize ? <ul style="list-style-type: none"> How to get the best out of your 5 ASA Steroids: will you still love me tomorrow ? Immunomodulators in the era of biologics: Which , When ?
12.10 - 13.10	Beyond the conventional: Biologics & Biosimilars <ul style="list-style-type: none"> Biologics: Optimal positioning in treatment algorithms Biosimilars : Pros and cons in current practice Anti-integrins: hope or hype?
13.10 - 13.30	State-of-the-art Lecture Management of adverse events and explaining risks of therapy
13.30 - 14.15	Lunch
14.15 - 15.05	The Follow up corner <ul style="list-style-type: none"> Therapeutic Drug monitoring: Why, what , when ? Faecal calprotectin: Can it guide therapy Post operative recurrence: Is it a misnomer ? Can we prevent it ?
15.05 - 15.45	How I manage IBD: A personal interview
15.45 - 16.00	Key Note Lecture - My IBD journey
16.00 - 16.15	Coffee and Tea Break
16.15 - 17.30	Complications in IBD <ul style="list-style-type: none"> Case based panel discussion: Fistulizing Crohns disease CMV & C difficile: bystander, suspect or culprit ? Extra intestinal Manifestations of IBD: What is the issue ?
17.30 - 18.15	Debate of the day : Steroid refractory colitis Point : Enough is enough , now surgery Counterpoint : Worth the wait, no hurry for surgery
18.15 - 18.45	The Patient's corner From the patient: what am I looking for ? Family matters: Unaddressed needs in women with IBD
19.00	Gala Dinner
